Joanne, Mike,

It looks like the BigBelly trash cans are one step closer to becoming a reality in Little Tokyo. George Huang of the Streets and Stormwater Division has asked us to confirm the locations for the trash cans, which I did. The locations were selected more than a year ago. Now, George wants to know how we want them wrapped. He wants our answer as soon as possible because it takes several weeks to fill the order.

The specs for our BigBelly trash cans are attached (HC5). I have also attached a few examples. As you can see, there are many ways to wrap the trash cans. Personally, I like the clean, simple look, but I also think it would be nice to have a bright color with the Little Tokyo BID logo somewhere.

I researched what other cities and BIDs are doing, and here's what I found:

- Pasadena are plain.
- Echo Park has both plain and colorful bins.
- Downtown Center BID posts info about their services with logo and has a colorful background.
- New York has the logo for "Union Square Partnership" and the website address, unionsquarenyc.org
- West Hollywood's BigBelly apparently accepts both trash and recyclables, so they decorated the trash cans with colorful images of bottles and cans.

Mike, we also have been offered 10 additional non-compacting trash receptacles and street benches under the ATP grant. I told him we gladly accept the trash cans because I know this was previously supported by the LTBA board. In fact, we were going to buy them ourselves. However, I told George that we need to discuss the benches because this has not yet been mentioned to our board. Can this be added to the next agenda?

Let's talk tomorrow (Wednesday) so that I can respond to George.

Ellen
